# Two Noted Grave Robbers.

Two Noted Grave Robbers.

Our readers will remember the account given in these columns of the robbing of the grave of the Hon. Scott Harrison, in Ohio, last May, the body being found in the dissecting room of the Ohio Medical College. Public indignation justly brands any man as a scoundrel who will rob the grave of the dead. But there are two noted grave robbers in the country, so far from being the subject of the people's wrath, are universally lauded for their virtues. The reason is plain. While the former class steal the dead bodies of our loved ones to submit them to the dissecting knife, these only rob the graves to restore the Hving victims to our hearts and homes. Their names—Dr. Pierce's Golden Medical Discovery and Pleasant Purgative Peliets—are household words the world over. The Golden Medical Discovery cures consumption, in its early stages, and all broughts, throat, and lung affections; Pleasant Purgative Peliets are the most valuable laxative and cathartic.
